United States Army Signal Corps

To make the Soldier's Home Dinner Movement work, and through it, to help house the soldiers who are in need of homes, the Citizen's Council is making an effort to provide meal tickets for the soldiers in connection with the dinner.

"The Council on Housing," said Mr. Maynard, "will be the organization that will take care of the housing problem, and the Soldier's Home Dinner Movement will be the mechanism through which the homes will be provided."

The Citizen's Council has been working on this project for several months, and has already secured a sufficient number of meal tickets to provide for a large number of soldiers. The tickets will be distributed to the soldiers in the various camps throughout the country.

"The Council on Housing," said Mr. Maynard, "will take care of the actual housing, and the Soldier's Home Dinner Movement will be the means by which the homes will be provided."
